# Constellation Table

The Constellation Table designed by Chris Adamick is the result of thoughtful response, not reaction to a changed office landscape — a design that will be just as relevant in years to come as it is now. This modular table makes gathering feel connected and safe, encouraging behavior through form by rethinking its function. The elements of a traditional table are pulled apart allowing for an array of different surfaces or plant life to infill its connection points.

What we love about this table is that it solves for agency but also organically connects people allowing them to collaborate or share a cup of coffee. Social cues and behaviors are gently guided by its lightweight industrial structure that takes the guesswork out of how we will be meeting now and in years to come.

Average Lead Time: 8 Weeks

Constellation Table  
3-Top Base Module

Constellation Table  
Add-On Module

## Dimensions

3-Top: 68"L x 61.5"W x 42"H  
Add-On Module: 51"L x 44"W x 42"H

Table Top Diameter: 18"Ø

## Materials

Top: Solid Wood or HPL  
Infill: Matching Veneer or HPL  
Base: Powder-Coated Steel

## Build Your Own

Constellation starts as a 3-top module and builds from there with the add-on module. Keep it simple as a small huddle solution or create a long run for open floor plans, conferencing and cafe spaces. Hooks are included with your table. The sky is the limit!

Constellation can also be powered.
