

Timber Table

CORRAL

Timber Table

We designed the Timber Table to not just accommodate but embrace customization. Inspired by the picnic table, that hardy symbol of leisurely summer days, Timber can make work—especially collaborative sessions—feel like a walk in the park. Each Timber Table is equipped with a metal trough running the length of the table and legs that contain a mouse-hole for elegantly concealed power management that streamlines cords from tabletop to trough to floor. Choose from our set of standard sizes, finish, edge and corner or choose your very own and let us know what your power requirements are.

Timber Table Collection

Made to order standard & bespoke table editions available. Contact trade@corralusa.com for pricing on custom tables and power integration requests.
